## **Innovator Award Nomination**

## Innovator Award

Many of JA students go on to do great things, from starting their own entrepreneurial venture to creating innovation within an existing business, and positively impacting their community at the same time. Northern Alberta is home to many bright talents doing amazing things within our companies and our communities.

The JA Northern Alberta Business Hall of Fame Innovator Award recognizes northern Alberta nominees whose leadership, determination and dynamism are driving business and positively shaping their community, their impact could be local, provincial or even beyond. They may be creating new jobs, demonstrating innovative technologies and practices, or putting Alberta on the map for other positive reasons.

Unlike many Business Hall of Fame laureates, JA Innovator Award recipients are still building their legacy. They have ambitions they are still striving for and are still in the process of making a name for themselves, while actively making their community a better place as well.

Chosen by an independent selection committee comprised of individuals from the JA Board of Directors, the Innovator Award recipient will be selected based on the following criteria:

1. **Economic Impact** - The nominee is having an economic impact on the local, provincial, or national economy through financial success, job creation, expansion and/or innovation.
2. **Community Impact** – In addition to their business leadership, the nominee will be engaged and have a positive impact on their community. They use their influence and/or resources to support and advance community initiatives.
3. **Role Model** - The nominee is respected by their peers and has influenced the success of their company or venture. They have potential to empower other young people to be leaders and entrepreneurs.

The **2023 JA Business Hall of Fame Celebration** will take place in Fall 2023. The Innovator will be announced in spring 2023.
